

AMANI KALUA

Cybersecurity Analytics and Operations

(240) 474-2336 · amani.kalua0123@gmail.com · linkedin.com/in/amanikalua

EDUCATION

The Pennsylvania State University, University Park, PA

May 2026

B.S. Cybersecurity Analytics and Operations · Minor in Security and Risk Analysis · GPA: 3.43

SKILLS & CERTIFICATIONS

Technical: Python, Java, SQL, HTML/CSS, Network Security, Risk Management & Assessment, Data Management

Tools: Microsoft Office Suite, Forensic Investigation Tools (Autopsy, Volatility), Splunk

Certifications: NSA CAE-UCT (May 2026) · Google Professional Cybersecurity Certificate (Aug 2023)

EXPERIENCE

Stakeholder Relations Chair

Jan 2026 – May 2026

IST Undergraduate Student Council · University Park, PA

- Served as primary liaison between 3,000+ IST undergraduates and college administration; represented student interests in formal meetings
- Cultivated partnerships with 20+ student organizations, faculty, and departments to align priorities and coordinate initiatives

IT Analyst

Aug 2025 – Dec 2025

Centre Film Festival · University Park, PA

- Designed, updated, and maintained the Centre Film Festival website; ensured accurate event information during high-traffic periods
- Resolved technical issues for staff and volunteers in a fast-paced, live-event environment, minimizing downtime

Resident Assistant

Aug 2024 – May 2026

Penn State Residence Life · University Park, PA

- Managed residential community of 30+ students; mediated conflicts and maintained a safe, inclusive living environment
- Mentored residents on academic resources, campus involvement, and personal development

Junior Administrative Assistant

Aug 2024 – May 2026

Office of Scholars Programs, Penn State · University Park, PA

- Coordinated planning and execution of academic and leadership programs serving 100+ high-achieving students
- Served as primary liaison between program staff and scholars, managing communications and resolving issues efficiently

PROJECT WORK

Lead Digital Forensics Analyst

Jan 2026 – May 2026

Cyber Forensics Investigation · Cybersecurity Capstone

- Acquired and analyzed digital evidence from disk images and memory dumps using industry-standard forensic tools (Autopsy, Volatility)
- Documented findings and produced formal reports detailing attack timelines, indicators of compromise, and remediation steps

Security Data Analyst

Aug 2025 – Dec 2025

Network Traffic Analysis — Machine Learning · Cybersecurity Analytics Studio

- Trained and evaluated supervised ML models on corporate network traffic datasets; achieved up to 99% accuracy in classifying attack flows
- Analyzed malicious traffic patterns and presented findings in a professional technical report
